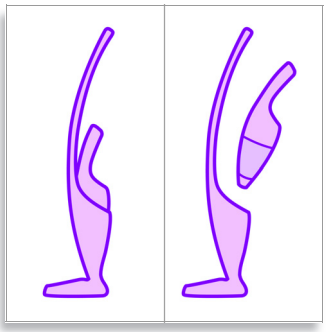
Highlights

Designed to fit your home

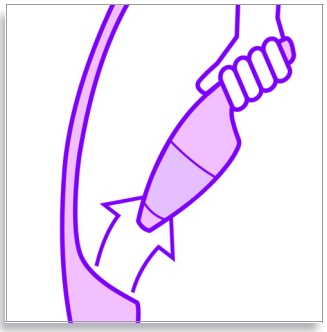
The design of the product - both in shape and in colors - has been made in such a way that it fits into your home.

2-in-1 functionality



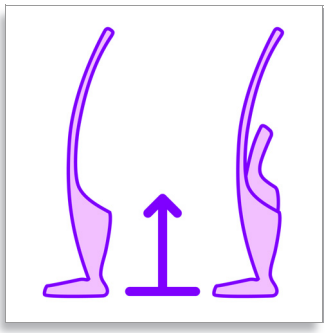
The 2-in-1 functionality gives you both a stick and a handheld vacuum cleaner in one, to easily clean both floor and furniture.

QuickDraw release system



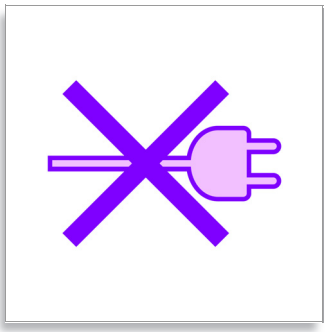
With the QuickDraw release system you can easily remove the handheld from the stick with only one hand, so you can quickly switch between using the stick and the handheld.

Self-standing parking position



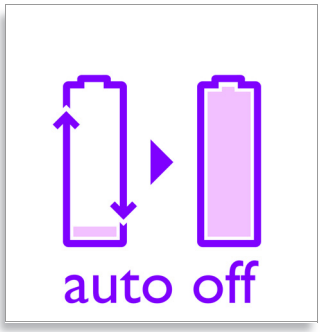
The stick has a convenient parking position to stay upright, both with and without the handheld. Therefore, you can instantly park the stick anywhere you want, also while you are cleaning.

Cordless operation



The rechargeable batteries for cordless operation give you freedom to clean everywhere.

AutoOff charging system



The AutoOff charging system automatically shuts off when the batteries are fully charged, and therefore saves energy that other systems waste.

Specifications
